

Core Pure Hydration

information

Overview:

The Core Pure Hydration IV Kit is designed to replenish lost fluids and restore your body's hydration levels. Packed with a blend of electrolytes and hydrating fluids, this treatment is ideal for recovery, fatigue, and overall hydration. Whether you're recovering from exercise, dehydration, or just need a boost, this IV therapy provides the essential hydration your body craves.

Kit Contents:

Ascorbic Acid / Vitamin C (500mg/mL) – 30mL

Olympia's Vita-Complex – 30mL

Olympia's Mineral Blend – 30mL

Possible Benefits of Ascorbic Acid (Vitamin C):

Increases skin moisture and hydration.

Repairs damaged skin cells and promotes new cell growth.

Boosts immunity, protecting the body from illness.

Possible Benefits of Olympia's Vita-Complex:

Helps reduce fatigue caused by dehydration.

Regulates the physiological response to stress and enhances mental clarity.

Restores energy levels for overall vitality.

Possible Benefits of Olympia's Mineral Blend:

Contains essential electrolytes needed for hydration.

Helps regulate fluid balance across cells.

Aids in replenishing essential minerals after physical activity or dehydration.

If you're feeling drained or dehydrated, Core Pure Hydration is the perfect solution. This treatment helps replenish hydration levels, reduce fatigue, and improve overall wellness by providing your body with the essential fluids and nutrients it needs to feel refreshed and revitalized.
