

Core Vital Defense

information

Overview:

The Core Vital Defense IV Kit is designed to boost your immune system and support your overall wellness. Packed with Vitamin C, Zinc, and B12, this powerful treatment enhances immune function and helps keep you feeling your best, especially during flu season or when you're feeling run down.

Kit Contents:

Ascorbic Acid (Vitamin C) – 30mL

Olympia Vita-Complex – 30mL

Zinc Sulfate – 10mL

Possible Benefits of Ascorbic Acid (Vitamin C):

Acts as an antioxidant to protect cells from free-radical damage.

Aids in iron absorption, supports collagen creation, and boosts immunity.

Helps improve skin health and hydration.

Possible Benefits of Olympia's Vita-Complex:

Packed with B-complex vitamins, which may help keep skin and blood cells healthy.

Supports nutrient conversion into energy, promoting overall vitality.

Enhances hydration and mental clarity.

Possible Benefits of Zinc Sulfate:

Helps reduce the duration of illnesses, supports immune function, and speeds up the body's healing process.

Helps prevent infections and supports recovery.

If you're looking to support your immune system and boost your energy levels, Core Vital Defense is a powerful IV treatment. With its carefully selected ingredients, this treatment strengthens your immune defenses and promotes overall wellness, ideal for staying healthy during flu season or whenever your body needs a recharge.
