

Core Lean *information*

Overview:

The Core Lean IV therapy is designed to help burn fat and boost metabolism, providing your body with the necessary nutrients to optimize fat metabolism and enhance energy levels. This treatment combines high-quality ingredients, such as taurine and B12, to give your body the support it needs for effective weight loss and metabolic optimization.

Kit Contents:

Methylcobalamin (10ml)

Olympia Vita-Complex (30ml)

L-Taurine (30ml)

Possible Benefits of Methylcobalamin:

Improves concentration and mental clarity

Boosts energy levels for sustained vitality

Helps convert fat into energy, aiding in weight loss

Possible Benefits of L-Taurine:

Maintains proper cell hydration and electrolyte balance

Enhances mental performance and focus

Reduces fatigue and promotes overall energy levels

Supports enhanced physical performance during exercise

Possible Benefits of Olympia's Vita-Complex:

A blend of B vitamins that may support healthy skin and blood cell function

Helps convert food into energy, supporting metabolism and overall wellness

This treatment is a perfect fit for anyone looking to support their weight loss goals and metabolic health with a science-backed, nutrient-rich infusion. If you want to boost your metabolism and enhance fat burning in a safe and effective way, Core Lean is here to help you on your journey.
