

Core Relief

information

Overview:

The Core Relief IV Kit is designed to help support recovery by restoring energy and soothing muscle cramps. It's an excellent option for muscle recovery, hydration, and restoring vital nutrients to the body, especially after physical activity, fatigue, or dehydration. The IV helps provide relief from sore muscles, tension, and general discomfort.

Kit Contents:

Calcium Chloride 10% (100 mg/mL) 30mL

Olympia Vita-Complex 30mL

Hydroxocobalamin B12 2mg/mL 30mL

Magnesium Chloride 300 mg/mL 30mL

Possible Benefits of Calcium Chloride:

Restores serum calcium levels for muscle function and pain relief.

Relieves muscle cramps and muscle spasms.

Improves serotonin levels, alleviating irritability.

Possible Benefits of Hydroxocobalamin B12:

Aids in energy production and helps reduce fatigue.

Enhances brain and nerve function.

Helps improve mood and mental clarity.

Possible Benefits of Olympia's Vita-Complex:

A blend of B vitamins that may support healthy skin and blood cell function.

Helps convert food into energy, supporting metabolism and overall wellness.

Possible Benefits of Magnesium Chloride:

Supports carbohydrate metabolism to improve energy and mood.

Helps reduce muscle tension and promotes overall relaxation.

Helps with reducing inflammation and enhancing recovery.
