

Core Ultra Immune *information*

Overview:

The Core Ultra Immune IV Kit is a powerful immune-boosting treatment designed to strengthen your body's defenses. Packed with Glutathione, Ascorbic Acid (Vitamin C), and Zinc, this treatment helps maintain a healthy immune response and guard against infections before they even start.

Kit Contents:

Glutathione

Ascorbic Acid (Vitamin C)

Zinc Sulfate

Possible Benefits of Ascorbic Acid (Vitamin C):

Supports both innate and adaptive immune systems.

A powerful antioxidant that helps protect cells from free-radical damage.

Boosts collagen production and improves skin health.

Possible Benefits of Zinc Sulfate:

Plays a vital role in the development and function of immune processes.

Helps reduce the duration of illness and supports healing.

Strengthens the immune system to prevent infections.

Possible Benefits of Glutathione:

Protects immune cells and enhances their function.

Provides optimal functioning of other cells in the immune system.

Aids in detoxification and fights oxidative stress.

Core Ultra Immune is ideal for anyone looking to strengthen their immune system and stay healthy. With its potent blend of Glutathione, Vitamin C, and Zinc, it provides essential support for your body's immune response, helping you stay ahead of infections and feel your best.
